

Department of CA English, Music, and Art (Adopt-A-Room Project 2011)

The Department of Communication Arts English, Music and Art includes in its programs verbal communication in English and other forms of communication, specifically music and art, which are usually included under the discipline of the humanities. These programs are designed to develop the functional skills of listening, speaking, reading, and writing in English, and awareness and appreciation of the various literary and art forms by which men, through the ages, have sought to communicate their emotions, ideas, and experiences. Department of Science (Adopt-A-Room Project 2011)

The UPIS Science program provides for the empirical understanding of chemical, physical, and biological systems with accompanying technologies. The program also provides for awareness of the inputs of various technologies to society in particular and to the environment in general.

Department of Health & PE (Adopt-A-Room Project 2011)

The UPIS Health program aims to: (1) broaden and strengthen the sense of responsibility and power of self-direction for one's own health and that of others; (2) develop the capacity of logical thinking and good judgment concerning life; and (3) attain knowledge, skills, and attitudes about the proper care of physical, mental, emotional, social, moral, and spiritual aspects of one's life, family, and society. On the other hand, a well-rounded and adaptive individual is the over-all goal of the Physical Education program. It aims to secure the best possible development of children and youth, especially along the closely related lines of physical growth, motor skills, emotional maturity, social adjustment, and responsible citizenship.
